

From the Chair

Dear Member,

Please note – **your next lecture has been moved to 27th October** in order to get beyond “lockdown”. I am so excited now that things will open up! For a seat telephone us immediately. I’m so pleased that so many of you have enjoyed Around The World in 80 Days from Art Soc.UK

Next year’s fees will revert to the 2019 figure. \$145 for singles and \$270 for couples. Renewal forms will be sent out later. We have put together a full program of excellent lecture topics, all by Australian lecturers, and your Committee is excited at the prospect of returning to our happy gatherings in 2022.

Regards, Kirstie Graham

Art & The Third Reich
27th October

Leigh will look into Hitler’s often overlooked artistic background; A frustrated artist in the traditional school rejected due to the rise of Modern Art in the early 20th Century. Hitler’s rejection fuelled his need to eradicate his new Modern movement once he and his Third Reich came into power. Leigh follows Hitler’s attempt to influence taste and trends through his conquest to acquire some of the most famous examples of Classical Art for his self-curated ‘Führermuseum’ in Linz, and takes a closer look at the plundering and destruction of a generation’s worth of art Hitler deemed ‘degenerate’ (the infamous, and important ‘Entartete Kunst’ Exhibition).

Leigh will analyse some of the most important artworks and artists lost in Hitler’s war on Modern Art, the Monuments Men & the search for the stolen art, and the aftermath & impact on Post War art. He will also discuss the impact and influence of the Holocaust on Post War and migrant art in Australia
