

Our Young Arts Program

Through the **Young Arts Program** ArtsNational societies offer opportunities to students, young artists, and performers in their local area, through grants to individuals, schools and community-based groups.

This helps young people to discover and develop their abilities, participate and appreciate the arts by being involved in a variety of ways.

Each month members purchase raffle tickets, the money raised going to fund our Young Arts Program.

In 2023/2024 ArtsNational Sunshine Coast is continuing to support local young people.

We have chosen to support the Chancellor State College's Junior Choir by funding the Choir's participation in the Regional and State Music Eisteddfods.

The school's Arts Program enables students through Dance, Drama, Media, Music, and Visual Art to express and communicate what it is to be human, and develop, share, and pass on understandings of themselves, our histories, our cultures. The Arts are integrated into Units of Work across all year levels.

Specialist Music teachers deliver class lessons for all Preparatory to Year 6 classes and students can be a part of an Instrumental Music program including strings, brass, woodwind, and choir.
